An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. David Benson on December 21, 2005.

In the claims:

Claims 40 and 55-60 have been cancelled.

In claim 50, line 3, "and to prevent flashover" has been deleted.

The following is an examiner's statement of reasons for allowance: The claims are allowable due to the recitation of a layer overlying a portion of the vacuum chamber coupling the cathode to the external conductor of the flexible coaxial cable. The conductor 108 (see Figures 10 and 11) of Parker cannot be considered a layer and couples to the anode, rather than the cathode.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
